EXECUTIVE PROFILE

Senior iOS Tech Lead with 5+ years of experience scaling mobile apps to hundreds of millions of users in a remote-first environment. Led large-scale architecture migration (Objective-C → Swift/MVVM) for a distributed team of 60+ engineers, reducing technical debt by 40% (~2,000 annual hours saved) and improving deployment frequency by 25%. Expert in distributed leadership, mentoring international teams across multiple time zones, cutting onboarding time by 50%, and delivering high-quality, accessible mobile experiences.

CASE STUDY: TECHNICAL LEADERSHIP

Architecture Migration at Scale - Pinterest iOS

Distributed technical leadership across 60+ engineer global team

CHALLENGE

Modernize Pinterest app (millions of users) from legacy monolithic Objective-C to modern Swift architecture, maintaining stability and performance during critical migration.

SOLUTION

Led gradual migration to Swift MVVM, reimplementing critical screens (Updates, Comments, Home). Established Clean Code standards, automated testing, and remote mentorship culture.

RESULT

Significant code quality improvement, reduced maintenance time, implemented weekly office hours and structured onboarding for new global team members.

DETAILED TECHNICAL EXPERIENCE

Senior iOS Tech Lead

Aug 2023 - Dec 2025

Pinterest

- Led Objective-C → Swift/MVVM migration for 60+ engineers, reducing technical debt by 40% (~2,000 annual hours saved) and increasing deployment frequency by 25%.
- Rebuilt 3 core features (Updates, Comments, Home) used by 450M+ users with 99.9% crash-free rate, resulting in 15% higher user engagement.
- Implemented global mentorship program with weekly office hours across 4 time zones, reducing onboarding time by 50% (3 months → 6 weeks).
- Reviewed 200+ pull requests per month, ensuring 95% code quality adherence and reducing critical production bugs by 30%.
- Increased unit test coverage from 60% to 85%, ensuring stability and confidence in the continuous delivery pipeline.
- Achieved WCAG 2.1 AA accessibility compliance across all features, benefiting 10M+ users with disabilities and improving retention in global markets.
- Collaborated cross-functionally with PM, Design, and Data teams to influence the global roadmap, prioritizing high-impact initiatives.

Technologies: Swift 5.9, Objective-C, SwiftUI, UIKit, MVVM, Combine, Async/Await, Snapshot Testing, Texture (AsyncDisplayKit), Buildkite CI/CD, Xcode 15

Instituto de Pesquisas Eldorado

- Developed and launched two production apps: WEMOB (electric mobility) and Márcio Atalla (health/fitness).
- Introduced code review practices, mentored juniors, and streamlined onboarding.
- Implemented CI/CD pipelines using Fastlane, GitLab CI, and TestFlight.

Technologies: SwiftUI, UIKit, Combine, Async/Await, REST, CI/CD, Fastlane

Student & Resident

Dec 2018 - Dec 2021

Apple Developer Academy

- Completed intensive training in Swift, UIKit, SwiftUI, and product-driven development.
- Delivered 5+ iOS apps from concept to MVP following Apple's HIG.
- Applied design thinking and accessibility-first practices.
- Promoted to Resident, mentoring new cohorts and collaborating on academy-wide projects.

Technologies: Swift, UIKit, SwiftUI, Human Interface Guidelines, Design Thinking, SOLID
